Nadezhda Prokopchik

UX/UI Designer

Portfolio | **n.prokopchik28@gmail.com** | **Telegram (n_prokopchik)** | **LinkedIn**
Minsk, Belarus · Ready for Relocation & Remote work

3+ years of UX/UI design experience for mobile and web apps in B2B and B2C sectors, with expertise in SaaS, cryptocurrency, UCaaS, and telecom. I blend empathy and creative problem-solving to deliver user-centered solutions that drive business growth and improve user engagement. Initiated and implemented a design review process, ensuring high-quality design in production and accelerating its alignment with the mockups.

Experience

IDT Corporation — 06/2023 – Present

Product Designer (BOSS Revolution)

- Developed and maintained a design system using the Atomic Design approach, aligning projects across teams and integrating it into the web platform in collaboration with developers.
- Redesigned the Account Center of BOSS Revolution according to the new Design System, driving an 8% increase in user retention.
- Facilitated cross-team communication in Figma, creating clear file navigation that reduced search time for flows and helped developers easily see the entire flow with all states, leading to faster development and fewer revisions.
- Initiated UI/QA reviews, which streamlined the process of identifying and resolving inconsistencies between design and development, resulting in a 95% improvement in product quality.
- Introduced the practice of creating clickable prototypes for the design approval process, allowing the team to visualize the product in action and understand how certain features are expected to function after development.

UX/UI Designer (net2phone)

- Implemented information architecture and competitor analysis methodologies to gain deep market and user insights, resulting in improved usability and efficiency of the user experience.
- Developed a design system using the Atomic Design approach in Figma, transitioning from Sketch-based components, which enabled the design team to quickly access and apply reusable components across projects, improving efficiency and consistency.
- Redesigned Chrome Extensions and HubSpot integration widgets, driving a 15% increase in user engagement and a 12% improvement in user retention.

Mind development — 09/2022 – 09/2023

UX/UI Designer

- Participated in 6+ projects, ensuring on-time delivery and quality standards.
- Developed a stock market trading feature for a SaaS product to enhance platform capabilities, leading to a 12% increase in user engagement.
- Created a corporate website with 8 subpages in 3 weeks, ensuring a rapid launch and full alignment with business objectives.
